Summer storms of 2016 (8/11/2016, 8/19/2016-8/20/2016) caused erosion on a section of Corridor 20 in Dunn County, WI. This location is in the NW ¼ -NW ¼ of Sec 31 T 27N - R11W and is the approach to the bridge crossing Muddy Creek. The erosion is severe enough that the indicator ribbon for buried fiber optic cable is above ground. The county proposes to improve 450' of this trail by reshaping the eroded areas with a bulldozer and putting down 12" of base material. Base material will consist of approximately 190 cubic yards.
